Udayasaran Kumar S

Full Stack Web Developer

Professional Summary

Accomplished Full Stack Web Developer with expertise in the MERN stack, adept at crafting functional and scalable web applications. Mastery in Node.js, React.js, and MongoDB, complemented by strong problem-solving and communication skills. Proficient in leveraging Generative AI and swiftly adopting emerging technologies.

Experience

- Madurai district pandian consumers cooperative wholesale stores limited** | Warehouse Incharge
January 2023 - May 2024
 - At the warehouse, I manage daily operations with a team of packers, pickers, and loadmen to ensure smooth order processing and dispatch. I oversee billing and maintain records of purchases, sales, and inventory through a Tamil Nadu-wide logistics and sales platform, ensuring accurate documentation and efficient coordination across supply chain and sales teams.

Projects

- Casio Clone** [Live Demo Link](#) [Github Repo Link](#)
 - JavaScript
 - HTML5
 - CSS3
 - Created a front-end web application to replicate Casio's official website using JavaScript, HTML5, and CSS3.
 - Designed interactive web pages to allow users to explore Casio products and campaigns.

- CollaHub Social Platform** [Live Demo Link](#) [Github Repo Link](#)
 - React
 - Redux
 - JavaScript
 - Responsive Web Design
 - Git
 - RESTful APIs
 - Collaborated with team members to translate project requirements into a scalable and functional social platform using React and Redux.
 - Developed and maintained responsive frontend components, ensuring optimal user experience across devices.
 - Integrated Firebase for real-time data updates, providing seamless interaction within the community.
